

This document contains the therapeutic class review schedule for the Kentucky Medicaid Pharmacy & Therapeutics Committee during the upcoming year. Each therapeutic class is reviewed once per year, and the Committee can decide to perform “ad hoc” class reviews outside of the normal review schedule if it is deemed necessary. During the quarterly meeting, classes with recommended changes will be reviewed during the “Existing Class Review” portion of the meeting and classes with no recommended changes will be reviewed as part of the “Consent Agenda” items.
