Kentucky Medicaid – Preferred Drug List (PDL)

November 2026

What is the Preferred Drug List (PDL)?

The PDL is a list of commonly prescribed medications within select classes of drugs covered by Kentucky Medicaid. The PDL was created to promote clinically appropriate utilization of medications in a cost-effective manner.

How do I get the greatest benefit from my PDL?

- **Bring this Preferred Drug List and discuss it with your healthcare provider during your next visit.**
- Ask your healthcare provider to prescribe preferred medications whenever possible.

Where can I get the most recent prior authorization (PA) criteria?

- To view the most current PA criteria, please visit our Kentucky Medicaid portal: https://kyportal.medimpact.com/provider-documents/drug-information
