Over-the-Counter Drug List

Kentucky Single Medicaid MCO PBM Program

Effective 06/24/2026

This list applies only to the Kentucky Medicaid Managed Care Organizations (MCO) program. For the Fee-for-Service (FFS) program, please refer to the OTC list on the MedImpact provider portal at: https://kyportal.medimpact.com/provider-documents/drug-information. Inclusion in this list does not guarantee coverage. Quantity, cost, and other limits may apply.

Coverage updates effective 02/15/2026 will apply only to OTC products that meet the definition of a covered outpatient drugs (CODs), defined under Section 1927(k)(2) of the Social Security Act. OTC products may qualify as a covered outpatient drug when prescribed and applicable CMS requirements defined under the Act are met, such as FDA approval under Section 505 of the Federal Food, Drug, and Cosmetic Act with an assigned NDC. Products classified as dietary supplements, including vitamins and minerals do not meet the definition of a covered outpatient drug. Therefore, the coverage updates on 02/15/2026 will not apply to OTC products that do not fall under the COD classification, such as dietary supplements, including vitamins and minerals and will continue to be covered as they are today.

The list of Rebateable NDCs will only include OTC products, defined as COD. Covered vitamins and minerals can be found in the MCO OTC Drug List on the KY Portal.
